## Your Health & Safety

Be sure your bicycle is in good working order.  
Arrive early the day of the ride to check your bike  
and tires.

## Other things to remember:

- No headphones or ear buds: you need to hear  
and be aware of those around you.
- Carry a tire pump and patch kit.
- Fluid intake is very important: Remember to  
carry water bottles on your bike.
- Eat before you are hungry and drink before  
you are thirsty.
- Cyclists should ride not more than two abreast  
and should not impede the flow of traffic.
- Stop for stop signs and red lights.
- Cross railroad tracks at a right angle to  
prevent damage to your bike and possible  
injury to you. In wet weather, cyclists are  
encouraged to dismount and walk their bikes  
across the tracks.

## All riders must observe traffic laws.
